

Flags of the World

Purpose: to learn and gain a better understanding of each flag's, name of the country, their design and their colours.

Directions: the child searches through the "Flags" book and chooses the flag that they would like to complete. They then get all of the materials needed (ex. the flag that they chose, the coloured pencils needed, a pencil, eraser, a ruler, etc.) The child then completes the flag chosen on their blank flag paper. For assistance, they have a picture of the flag or the actual flag to follow. When the child is done, their drawing and colouring, they finish it off by printing the name of the flags country and their name underneath.

Extensions:

- The child can create a flag booklet with all the flags of the world
- The child may glue the flag onto a piece of construction paper and display it on the wall in the classroom
